

GOLF DIGEST PRESENTS

BEST TEACHERS IN YOUR STATE

AS RANKED BY THEIR PEERS / 2007-2008

To identify the best instructors in each state, we distributed ballots to more than 1,000 teaching professionals, asking them to rank their peers on a grading scale. On a state-by-state basis, we list the number of best teachers in proportion to that state's percentage of the total teaching-professional population—about 20,000 PGA, LPGA and unaffiliated teachers. Those with telephone numbers provided give lessons to the public; those without phone numbers don't give lessons to the public. Those teachers appearing in red are ranked among America's 50 Greatest, with their ranking in parentheses. > For more information about the survey, or to tell us about a teacher you think should be considered for the 2009 state and national rankings, visit golfdigest.com.
